Change of Packaging Material

Dear Valued Customer,

We hope you are doing well and appreciate your constant business support of NBK.

We have been making consistent efforts to reduce CO₂ emissions, given their effects on the environment, and thus to build a sustainable society. As a part of this endeavor, we have changed the bubble wrap material used in product packaging to a more environmentally friendly substance.

【Change Details】

Item	Before Change	After Change
Bubble wrap appearance		
Color	Green	White
Material	10% biomass blend	80% or more recycled material
CO ₂ emissions reduction	-	Approx. 60kg/year

*Padding functionality will not be affected by the change.

【Timing of Change】

We will gradually switch to the current packing materials as soon as they are no longer available. Please note that we cannot accept any requests for returns or exchanges related to this change.

Please do not hesitate to contact us if you have any questions.

Sincerely yours,

Masashi Sugiyama
