## Design Change of Aluminum Handle AV/AH-series Polishing

Dear Valued Customer,

We hope you are doing well and appreciate your constant business support of NBK.  
The specifications of the aluminum handles listed in the [NBK Catalog 2017] will be changed as follows. Pricing will not be changed as a result of this modification.  
Thank you for your understanding.

### [Information About Changes]

Due to manufacturing reasons, the buffing on the rim of the aluminum handle will be eliminated. Dimensions and shapes will not change due to these changes.  
Although the specification will be “No Buffing”, the same standard of surface roughness will be maintained as the product before the changes.

	Before Change	After Change
Rim	With Buffing	No Buffing
Appearance (1 Part Number Excerpt)	AH-160 	AH-160 

### [Change Effective Period]

The new versions will be shipped as soon as our stock in Japan of the existing specifications model runs out.

Note that we do not offer returns/exchanges as a result of this specification change.

### [Target Products]

Part Number (Model Name)	Applicable Sizes	NBK Catalog 2017 Listed Page
AV (Aluminum Offset Handwheels)	All Sizes	p.400
AH (Aluminum Flat Handwheels)	All Sizes	p.401

Please do not hesitate to contact us if you have any questions.

Sincerely yours,

Masashi Sugiyama
