## Design Change of MSF-32: Serration Type Coupling

Dear Valued Customer,

We hope you are doing well and appreciate your constant business support of NBK.  
We are writing to inform you about a change of specifications to our MSF-32: Serration Type Couplings as illustrated below.

The markings that show the NBK Logo and Part Number of the "MSF-32" listed in the "NBK Catalog 2017" will be changed additionally the mold being updated.  
Thank you for your understanding.

### [Target Products]

Part Number (Model Name)	Applicable Sizes	NBK Catalog 2017 Listed Page
MSF (Flexible Coupling)	Outside Diameter $\phi 32$	p.205

### [Information About Changes]

The logo on the hub's end face has been changed. There has been no change in the product dimensions, material, surface treatment, performance, or price.

Before

After

**[Change Effective Period]**

New versions will be shipped as soon as our stock of the existing specifications model runs out.  
The pre-change product and the post-change product will not be shipped together in the same order number.

Please do not hesitate to contact us if you have any questions.

Sincerely yours,

Masashi Sugiyama
