

SRSHS-ALK Ultra Low Profile Tamper - Resistant Screws with Nylon Patch

Protrusion Vibration resistant treatment Tamper Resistance SUS Stainless steel

● Material/Finish

SRSHS-ALK		
Main Body	SUSXM7	
Nylon Patch	Nylon 11	

● Application

Equipment/devices disassembly/tampering prevention
Theft prevention for outdoor facilities
Security measures
Safety measures
Screw return and fallout prevented

- Tamper-resistant special low profile cap screws, all with height heads of 1.5mm or below.
- With nylon patch.
- The friction of the nylon adhered to the thread suppresses the return rotation of the thread.
- Even if the tightening force is lost, the return rotation is suppressed, preventing the screws from falling off.
- The heat resistant temperature of the nylon patch is 120°C.
- This prevents mounting and removing with regular tools. The low head height makes it difficult to remove the screws by grasping the head itself, improving theft prevention.
- Low protrusion after mounting, complementing machinery and equipment appearance as well.
- Install and remove with **SRSHB** Dedicated Bits and **SRD** Dedicated Magnetic Screwdriver together.

Unit : mm

Part Number	M (Coarse)		L	D1	L1	Bit Part No.	Screwdriver Part No.	Mass (g)	Qty per Pack
