SPA-N-BK Plastic Hex Nuts - RENY

Lightweight "High Specific Strength

Material/Finish

	ROIDS
	SPA-N-BK
Main Body	RENY ^{TM*1} (50% Glass Fiber Reinforced Polyamide MXD6) (Black)
Heat Resistance Temperature*2	105℃

- *1: RENYTM is a trademark or registered trademark of Mitsubishi Gas Chemical Company, Inc.
- *2: This is the value for the resin material. The operating temperature of the product changes with performance conditions such as tightening torque.
- Part Number Specification

SPA-M5-N-BK

- RENYTM hex nuts.
- RENYTM is a thermoplastic engineering plastic with excellent tensile and bending strength.
- It is highly fatigue-resistant and has excellent creep and heat insulation properties.
- While it is nearly as strong as metal, its weight is approximately 1/5 of iron.
- For the properties and precautions for use of plastic screws, see "Properties of Plastic Screws."
- Application

Heat insulation and dew condensation prevention of refrigerating and freezing facilities

Electrical and electronic equipment / Offshore instruments / Plating facilities

Unit:mm
