

# SRTFS-ALK-SET

Two - Hole Flat Head Machine Screws with Nylon Patch Rosette Washer Set

Vibration resistant treatment

Tamper Resistance

SUS Stainless steel

## ● Material/Finish

**SRTFS-ALK-SET**

Main Body	Equivalent to SUS304
Nylon Patch	Nylon 11
Rosette Washer	SUS303
Strength Class	Equivalent to A2-50

## ● Application

Equipment/devices disassembly/tampering prevention  
 Theft prevention for outdoor facilities  
 Security measures  
 Safety measures  
 Screw return and fallout prevented

- Set of two-hole flat head machine screws **SRTFS-ALK** and rosette washers **SWAS-RW**.
- With nylon patch.
- Countersinking is not required.
- The friction of the nylon adhered to the thread suppresses the return rotation of the thread.
- Even if the tightening force is lost, the return rotation is suppressed, preventing the screws from falling off.
- The heat resistant temperature of the nylon patch is 120°C.
- This prevents mounting and removing with regular tools. Also, since use as a set with rosette washers makes it difficult to grasp the screw directly with a tool and rotate it, theft prevention is improved.
- Install and remove with **SRTB** Dedicated Bits and **SRD** Dedicated Magnetic Screwdriver together.
- The simple head design is also suitable for decoration.
